Ferrets should have distemper vaccination and be in carrier or on leash.

Come & spend the afternoon with your furry companions!

Sale Item of the Month

New Plushies! OK, we're gonna confess this is not the world's best quality plush ferret. His fur is a little thin, his nose is a little fat, and he doesn't have the kerchief shown in the photo. He's about 11" long, including tail, and 6" tall. **BUT**, if you've always wanted a SILVER plush ferret, or maybe if he reminds you of your favorite, not-so-perfect oldie, this is the guy for you! He even has wire in his tail, so you can bend it up into the elderly ferret's well-known "raisin radar" curl. Hard to find elsewhere, we're offering him for only \$11 including shipping. Grab a pair for only \$19.

(Please [contact us](#) for international shipping rate.) You can mail a check or paypal funds to info@ferret-fact.org and we'll send one right out.
